Getting Started With Mylabs Plus

WHAT IS IT? MyLabsPlus is an interactive website where you can:

- Complete your graded online homework and get immediate feedback.
- Self-test to improve your math skills.
- Study more efficiently.
- Create personalized study plans with exercises that match your book.
- Get help when you need it. Includes multimedia learning aids like videos and animations.

WHAT DO I NEED TO GET STARTED?

- A MyLabsPlus Student Access Code, packaged with your book. You may also purchase a standalone access code from the campus bookstore or purchase online using a credit card.
- Access to your instructor's Oncourse class page

WHAT STEPS DO I TAKE NEXT?

- Log into Oncourse and open your class page.
- Look for the MyLabsPlus link on the left-hand side of the page. Click this link and MyLabsPlus will open in a new window.
- Once you have completed the registration steps below, access to MyLabsPlus will continue to be through the Oncourse link above.

If you already have an access code (that you believe is valid for this course) or plan to purchase one online…

- The first time you click on an assignment or learning aid within your course, the License Agreement and Privacy Agreement page will appear. Click I Accept once you have read and agree with the terms of use.
- You will now be prompted to enter your MyLabsPlus access code or purchase online. To enter your access code, select the Access Code option, enter your code, and click Next.
- If you prefer to purchase online using a credit card or PayPal, select the Buy Now option and click the product link to complete your purchase.
- Once you have successfully entered your access code or completed an online purchase, you will receive a confirmation page and may now continue working.

If you would like temporary access so that you may start doing homework immediately…

- On the access code redemption/purchase page (as described above), there is a third option Pay Later. Click this option (the date upon which this temporary access expires appears) you will be given temporary access to your assignments and eText. The homework scores that you acquire during this period will be saved and remain in the system under your login (through Oncourse) once you have purchased access.
- The first time you click on a MyLabsPlus assignment or learning aid after the temporary access period has expired, you will be prompted to enter your MyLabsPlus access code or purchase online.
- Note: If you choose the temporary access code option, you must wait until the temporary access has expired (approximately two weeks after you activate the temporary code) to enter the purchased code.
- Once the temporary access has expired, follow the directions above to reactivate your MyLabsPlus account.

NEED MORE HELP?

- If you need technical support, select the Support tab located at http://indiana.mylabsplus.com. Here, you will find an online knowledge base, as well contact information for the MyLabsPlus support team (with phone help 24/7).
