Interpretation guidelines

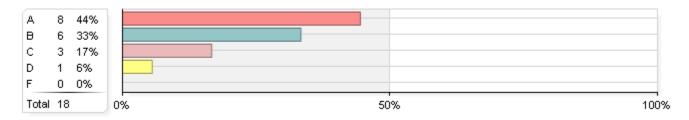

The highest value represents "Strongly Agree" while the value "1" represents "Strongly Disagree". Keep in mind that students completing their course evaluations does not necessarily mean they answered each question. As a result, for some items, you may notice that the total number of responses is lower than it is for others. In these cases, the student decided to skip this question. Students also may have skipped the open-ended questions, thus leaving you with fewer responses in these sections.

I learned more from Khan Academy for this curse than I did in lecture. He is not a very good teacher.
Professor Yattselev was a good professor. He clearly communicated which section of the textbook we were working in each day. On the rare occasion he made a mistake, he would address it promptly in the next class session. He knew all the students by name. I think the class structure was fair.
High quality instructor - would definitely recommend. Lectures are well organized and well delivered. I did not like the book for this course, because of the writing style. I'm not sure what would be better.
The instructor made the material easy to understand and easy to use. Great class.
I thought the class was structured and taught very well.

Wonderful class. Well taught. The tests are hard, but the course is fair.
