**Interpretation guidelines**

The highest value represents "Strongly Agree" while the value "1" represents "Strongly Disagree". Keep in mind that students completing their course evaluations does not necessarily mean they answered each question. As a result, for some items, you may notice that the total number of responses is lower than it is for others. In these cases, the student decided to skip this question. Students also may have skipped the open-ended questions, thus leaving you with fewer responses in these sections.

Comments
I really enjoyed taking this course with Professor Yattselev. He was really patient and worked hard to make sure we understood how to work out a problem or to grasp content that he went over in the course. He had no problem meeting after class to explain things as well. I definitely would take another class with this instructor.
Dr. Yattselev is a great instructor. I can tell he really cares about how the students are doing. In general the material is presented very clearly. I found this class more difficult than any other math class but I believe that is because I have never really taken a class like this before. I felt like the questions asked on the exam were slightly different than the questions asked on the homework so I definitely struggled on the exams and I am nervous about the final. Overall I thought this was a good class and I would take a class with Dr. Yattselev again.
I had a great experience in this course.
